Ultima Record Attempt

Hello Hein,

The 0 to 100 mph to 0 record was attempted earlier this week at Bruntingthorpe using an Ultima GTR road car. The vehicle was road legal and fitted with road tyres, the vehicle was in fact driven to the test track.

The test was in my view conducted in a fair and proper manner and the attached results are backed up with the raw data files that cannot be modified.

Venue: Bruntingthorpe Date: 18th August 2004

Vehicle: Ultima GTR Driver: Richard Marlow

Test Equipment: Microsat GPS System

Witnessed: Mark Hargreaves

Can you please look at the results, and if accepted present Ultima with an appropriate certificate.

Best Regards,

Mark Hargreaves
